Designed to improve communication with simple and intuitive interfaces.

MULTITOUCH INTERACTIVE TABLES

4K DIGITAL & INTERACTIVE TABLES

SmartMedia
www.smartmediaworld.net

Since ancient times the table has been an element of sharing and union, used in many areas: religious life, commerce and finally domestic life. It is the element around which **we gather to study, play, work together.**

Accustomed to the touchscreens of individual smartphones that separate people, **why not use the large touchscreen table** to share ideas and projects together?

A large touchscreen where you can play or work simultaneously with multiple people to exchange notes, images, videos, screenshots and write with your fingers.

Simple and intuitive.
